OUR CATERING EXPERTISE: A FRESH PERSPECTIVE FOR A BRIGHT FUTURE

These days, convenience products are integral to the catering trade. But how can you achieve both high-quality fresh cuisine and a pleasing profit margin? The only way is with a fresh perspective: having things cooked for you instead of cooking them yourself, and thus saving costly investments and work steps. This creates space for your own culinary creativity on the one hand, but also represents a secure foundation for economic viability. A fresh perspective therefore brings advantages to both guests and restaurateurs. It's the key to the future.

MANY PEOPLE CLAIM THAT YOU CAN EITHER BE AN EXCELLENT COOK OR A NEW SUCCESSFUL RESTAURATEUR. WITH US, BOTH OPTIONS ARE POSSIBLE!

THE BEST QUALITY, HIGHLY PRAISED BY GERMANY'S CHEFS

Many successful gastronomy businesses in Germany and Europe have been 100-per-cent reliant on the quality of our Block Menü for years. Our annual IFS Food certification represents both recognition and motivation at the same time. Another reason for our high level of customer satisfaction are undoubtedly our production processes: all raw goods are 100-per-cent traceable by means of an SAP system, while computercontrolled systems are used for precise portioning. Thus, our Block Menü ensures both security and reliability, along with a high level of quality.

WE COOK THE WAY YOU DO, CLASSICALLY –
ONLY OUR PANS ARE A LITTLE BIGGER.

CATERING EXPERTISE

Our Block Menü brings advantages in terms of quality, freshness, economic viability and security for all types of businesses in the catering industry. Whether it's for hotels, system catering or in traditional gastronomy, the carefully thought-out Block Menü system has the major advantage of offering precisely the right solution for all gastronomy concepts with variety and individuality. This allows you to indulge and spoil your guests efficiently and profitably.

OUR OWN REARING PROGRAM FROM NORTHERN GERMANY

For many years now, we have been active in our company-owned, local cattle rearing program with Uckermark and Angus cattle, by conviction and with great passion. Due to favourable weather conditions in Northern Germany, it is possible for the cattle to graze on the pastures for a long period of time during the year. That is why the Uckermark and the Angus beef has a fine marbling and is extraordinarily tender and juicy.

SUSTAINABILITY AS A PHILOSOPHY

Our dedication within the region renders a substantial contribution to the preservation of the Uckermark and the Angus cattle breed. The added value remains within the region and generates local employment. However, the sustainability concept goes much further: The natural and GMO-free food is also grown within the region which means that transportation routes are minimized.

ANIMAL WELFARE – CONSEQUENTLY IMPLEMENTED

Our near-natural cattle rearing must meet the highest requirements:

- The calves stay with the mother cows for about six months and grow up as grazing animals.
- All cattle are kept in open stables with much space and straw.
- The animals are fed with natural, GMO-free food from the region.
- The dehorning of the animals is not permitted.
- Antibiotics may only be administered by the attending veterinarian and only in cases of emergency.
- The cattle are not slaughtered until they reach an age of 18–27 months.
- We attach great importance to short transportation routes: the maximum time of animal transportation is about three hours.
- We remunerate our contract farmers' services with a price that is clearly above the market level. In this way, we enable our contract farmers to take comprehensive animal welfare measures and implement sustainable land use.

BLACK ANGUS-PROGRAM FROM TRANSYLVANIA

In the Romanian region of Transylvania with its idyllic, hilly landscape and extensive grazing areas we have entered a cooperation with a Black Angus breeder that provides the best quality meat from purebred Angus grazing beef. The climate in the region of Transylvania is excellently suitable for cattle rearing, and the grazing lasts from April to November. The cattle spend the colder winter months in modern, open stables where they have access to open-air areas and are given a sustainable supplementary feeding. The well-balanced feeding combined with the mobility all year round – that makes up the special flavour of this beef.

CONSOMMÉS AND SOUPS

CONSOMMÉS

Consommé of beef with 25 kg beef per 100 kg beef stock	☼	☼	☼	24 × 200 g 5 × 2,000 g	2110 000 2210 001

GENERAL

WRITTEN GUARANTEE

- We dispense with the unnecessary use of azodyes, flavour enhancers and preservatives.
 - However, some products, such as cured meat products (bacon, ham and sausages), cannot be manufactured without the use of nitrite curing salt.
 - Since 2010, the European Union has warned against the use of artificial colouring agents, such as tartrazine yellow or quinoline yellow. In the interest of our customers, we dispense with the use of artificial colouring agents according to EC Regulation 1333/2008.
 - As early as during the product development in our company, we try to dispense with the use of products containing gluten.
- We guarantee that all products are manufactured in a traditional manner from the best raw materials and under extremely hygienic conditions. We ensure this by our in-house quality assurance as well as by independent checks.
- All fresh products have a shelf life of at least 10 days. Our frozen products have a remaining shelf life of 90 days upon arrival at your place.

CERTIFICATION

Block Menü GmbH has been awarded with the IFS Food certificate by independent auditors. In 2003, International Featured Standard Food (IFS Food) was defined for the first time. Ensuring safety and quality during the manufacture of foodstuff, with steadily increasing requirements, has been its objective since then. IFS Food is based on the well-known quality management standard ISO 9001, but it additionally contains food-related aspects, such as the principles of HACCP including the handling of allergens.

IFS's requirements of Good Manufacturing Practice in production (cleaning, disinfection, pest control, maintenance, service, and training) are more comprehensive than the statutory requirements. Block Menü GmbH has passed the IFS Standard, version 7, at a higher level, and is committed to continuous improvement in the interest of its customers. We will be pleased to let you have a copy of our current IFS Food certificate upon request.

AWARD-WINNING PRODUCTS

When our convenience products convince through their quality and taste, awards are an encouraging confirmation and motivation for us at the same time.
